Dennison's Imported Tissue Paper.

130 SHADES.

For experiments in physics as well as for many exercises practiced by pupils in lower grades and kindergarten it often becomes necessary to illustrate colors. We believe that in no other commodity is there the uniformity of color and the range of shades possessed by our line of Imported Tissue. The gradation of shades is perfect and the whole line is thus rendered complete, correct and valuable as a study in colors.

DENNISON'S BOOK COVER PAPER.

In answer to many calls by Teachers for a

PAPER TO COVER BOOKS

we have made for that purpose a
special thickness of

"ALL ROPE TEA MANILA"

of which this page is a sample. It possesses to a marked degree

THE STRENGTH THAT RESISTS TEAR

— AND —

THE COLOR THAT RESISTS WEAR.

For this reason we have made use of this paper almost exclusively for wrapping our merchandise for nearly fifty years, until it has become thoroughly identified with our product.

Size of Sheet is 24x40.

Price is \$6.00 per ream, or 35 cts. per quire.

Size will cut economically into the various sizes required
for Book Covers.

DENNISON'S PASTE.

In all kinds of work with paper and cloth it is necessary at times to use glue or paste. For over fifty years in various departments of their works the Dennison Mfg. Company has been experimenting to perfect such adhesives. In the manufacture of boxes, tags, cloth sample covers, etc., etc., it is necessary to have glue and paste of the greatest strength, as well as the most careful composition.

For mounting photographs and delicate specimens in botany as well as all work requiring an odorless adhesive of medium strength, we believe our paste has no equal on the market to day.

DENNISON'S GLUE

IS THE BEST ADHESIVE MADE.

For use with Wood, Heavy Paper, Cloth, Glass or Leather we can recommend our Glue.
This is very strong, and by a secret process is made as nearly waterproof as possible.

$\frac{1}{2}$ Pint Size.

Glass Bottles, size as above, Price 10 cents.

2 "	" 1.25

DENNISON'S GLUE is put up undiluted, and is of a proper consistency to use where great strength is required.

If it becomes too thick or if to be used as a mucilage, dilute with vinegar, not water.

DENNISON'S GLUE is put up in 1 oz. Glass Bottles, and in $\frac{1}{4}$ pint, $\frac{1}{2}$ pint, 1 pint, 1 quart and 2 quart Tin Cans, and is stronger, cleaner and sweeter than any Glue on the market.

DENNISON MFG. COMPANY,

BOSTON, NEW YORK, PHILADELPHIA, CHICAGO, CINCINNATI, ST. LOUIS.

This Glue is now used exclusively by many of the largest contractors, who, after most careful and practical tests in Finishing and Cabinet Work pronounce it

THE BEST GLUE MADE.

DENNISON MFG. CO.

McGill's Patent Single Stroke Presses

Among the many points of excellence possessed by these Presses, are the following:

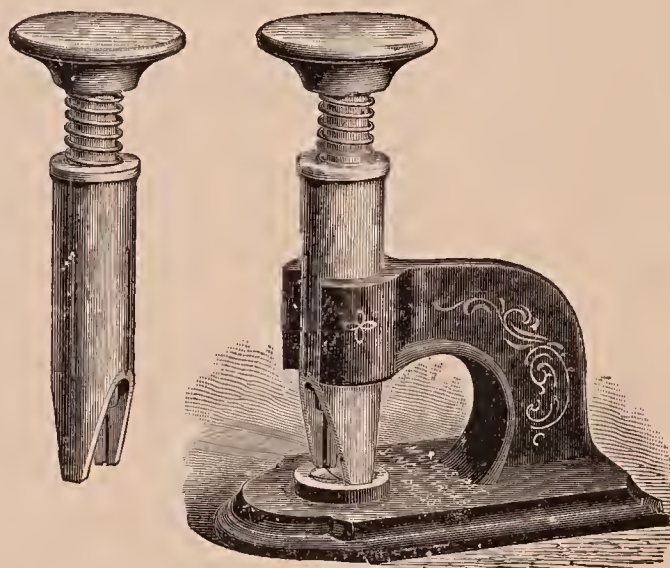

A *Single Stroke* upon the Plunger of the Press will instantaneously *insert* and *clinch* a Staple, in from two sheets of paper to two dozen sheets.

The Press will insert Staples having wide heads, adapted to protect from fracture the punctures made by the Staple Shanks in the papers bound.

It will instantaneously insert and clinch the ordinary WIRE STAPLE, as well as McGill's various patented STAPLE FASTENERS having wide and ornamented heads, and McGill's STAPLE SUSPENDING RINGS for suspending Cards, etc.

Press No. 2 differs from Press No. 1 in having the Staple-Driver detachable, as above shown, for the more ready placement of the staple in it, and to enable the staple to be inserted in the article being bound on a line crosswise or lengthwise the bed plate (or lengthwise through the fold of a paper or pamphlet, or along its folded margin), and also to adapt the driver to be used independently of the clinching anvil, for driving staples into woodwork where no clinching is desired, such as in upholstering furniture, tacking up cards, etc.

DENNISON'S TISSUE PAPER OUTFITS

Are put up in very attractive Illuminated Boxes.

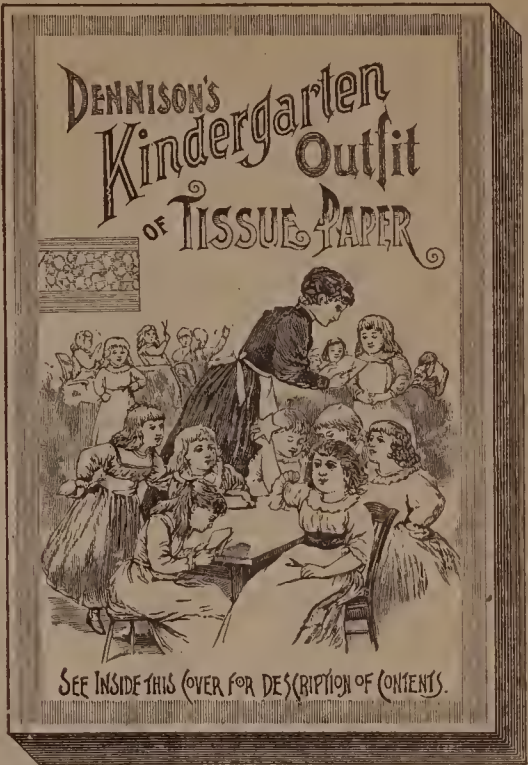

KINDERGARTEN OUTFIT.

Put up in a Very Attractive Box. Size 9 x 6.

PRICE 25 CENTS.

Contains 100 squares, size 5x5, assorted colors fine Imported Tissue Paper, 6 sheets Assorted Tissue Paper, Card-board Patterns for designing, and a pair of blunt-point scissors which a child can use without risk, also a new and handsome book, "Kindergarten Work in Tissue Paper," giving full directions for cutting fancy designs, folding, tracing and weaving; also for original kindergarten games with music.

In adapting our Imported Tissue Paper to Kindergarten work for young children, the number of beautiful shades is several times greater than the colored paper to be had, hence the much more brilliant and pretty effects to be obtained. The value of a trained color sense cannot be estimated. It has been aptly said that "color blindness is color ignorance," and as color is the first thing which attracts the eye of a child, by a proper color education much of the so-called color blindness can be done away with.
